

Nature Scavenger Hunt Checklist

Head outside to the playground or over to one of the parks (be sure to let the school staff know first). Put an “x” beside each of the items that you find. You can collect appropriate items in a brown bag. Add any interesting items to the blank spaces on the bottom of your list. Remember to be respectful of any living organisms you encounter (plants or animal)! You can race another team or just relax and enjoy exploring nature.

ITEM	FOUND
A wild flower	
An insect (don't collect this)
