Best value in town a "free lunch". All lunches are made fresh daily and include a variety of fresh fruits, vegetables and milk. Our meals are healthier than a fast food meal because it contains one third of your daily requirements. Each weekly menu contains less than 30% overall fat and under 10% saturated fats. With obesity and health problems on the rise parents and children can rest assured that we care about what your children are eating. We are located right behind City Market. Parents may join for a cost of \$4.00. Free meals are for the children so this is one time you can't eat off your children plate! 😊.

Please join us! We look forward to serving you!
