

## Summer Programs at Westminster College

Westminster College is pleased to offer another smashing summer of youth academic programs. You were contacted because we'd like to find exceptional students who would benefit from these life changing programs listed below:

### **Camp Great Salt Lake (July 12-17, 2010):**

Westminster's Great Salt Lake Institute invites campers to spend a few days as a scientist examining the extreme environment of the Lake. The camp will help students answer questions like: How does the lake harness sunlight? What lab techniques can we use to detect life? Do the brine shrimp really look like Sea Monkeys? The camp is open to 15 high school juniors and seniors. **Scholarships are available.**

Jaimi Butler  
GSLI Coordinator  
Great Salt Lake Institute  
1840 South 1300 East  
Salt Lake City, UT 84105

**College Experience Camps (July 11-17, 2010):** Fly a plane, make "money" in the stock market, build a robot or write your heart away at Westminster College Experience Camps. With programs in aviation, finance, robotics and creative writing, you'll find an adventure of a lifetime. College credit available for students entering 11th-12th grade in Fall 2010. Camps are open to students entering 9th-12th grade this fall. For more information visit: [www.westminstercollege.edu/camps/index.cfm](http://www.westminstercollege.edu/camps/index.cfm)
